

SWELTER HOUSE

COLD PLUNGE POOLS

As the counter point to the hot sauna, the plunge pool is a great upgrade to ones wellness routine. 50" in diameter and 60" deep the double walled and insulated, the pool is discreetly designed and fabricated from textured black Polyethylene. The pool is equipped with a integral step at the base and a ladder for ones exit. Diked for containment and as a floor for the calling component and pump, the pool is delivered as An autonomous unit ready to install in any existing structure or new build.
