

# SWELTER HOUSE

---

## JETTED HOT TUB

Swelter House hot tubs are discreetly designed for the most well suited materials to provide years of trouble free enjoyment. 3/4" polyethylene flanged and gusseted with double wall construction and diked for containment, the package is perfect for use in the finest residential or commercial setting. The pumps heaters and rigid and flexible hoses are pre-plumbed so that what is delivered is ready to plug and play as they say. General specs are available here, more detailed information will be provided upon receipt of deposit. These proprietary units are identical to those employed in the Swelter House, but if asked we can configure with modified dimensions to suit any requirement or condition.
